DETAILED ACTION

1. This Office action is in response to the communication received June 20, 2005. Claims 1-55 are pending in the application.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Claims 7-8 are distinct species of the generic feature of wherein said communications link between said service providers and said automated building services is.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 3 is generic.

Claims 9-10 are distinct species of the generic feature of wherein said wireless link is.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 8 is generic.

Claims 16 and 18 are distinct species of the generic feature of wherein said step of detecting a need for service in a building system comprises.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 12 is generic.

Art Unit: 3623

Claims 22 and 23 are distinct species of the generic feature of wherein said step of providing an electronic notification comprises.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 12 is generic.

Claims 26-27 are distinct species of the generic feature of wherein said step of monitoring said communications link for an electronic response to said electronic notification comprises.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 23 is generic.

Claims 40-41 are distinct species of the generic feature of wherein said step of detecting a need for service in a building system comprises.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 39 is generic.

Claims 44-46 are distinct species of the generic feature of wherein said step of providing an electronic notification comprises.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 34 is generic.

Art Unit: 3623

Claims 48-49 are distinct species of the generic feature of wherein said step of monitoring said communications link for an electronic response to said electronic notification comprises.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 34 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
